

DOMETIC DW6

Product description:

DOMETIC DW6 MINI FRIDGE

Dometic DW6 is a thermoelectric beverage refrigerator with integrated digital temperature display. The refrigerator has a transparent door, a magnetic safety lock and 3 shelves for perfect storage. The interior light can be switched on or off as required.

Dometic DW6 is a portable thermoelectric refrigerator with 12V DC operation for operation on a vehicle, boat or caravan or alternatively with an AC power supply.

When the Dometic DW6 has reached the set operating temperature, it automatically switches to energy saving mode. In this mode the Dometic DW6 refrigerator consumes only the energy needed to reach the temperature inside it.

The refrigerator is equipped with an automatic priority circuit, which ensures that with simultaneous connection to the AC mains and a 12V battery, AC power is automatically used for power supply.
