Product description:

FINI COMPRESSOR PLUS 11-10-500

The FINI COMPRESSOR PLUS 11-10-500 represents the pinnacle of the FINI compressor plus series, combining an impressive capacity of 500 liters with the most advanced compression technology. Created for those seeking the best, it delivers outstanding performance, remarkable durability and efficient handling. The ideal solution for professionals who make no compromises. FINI Oil-injected rotary screw FINI compressor plus with belt drive.

Tank-mounted version with fixed speed.

High energy savings

High-efficiency IE3 motors combined with high-performance screw units cut energy-related costs. In addition, IE3 motors reduce CO2 emissions-an important contribution to environmental protection.

Plug&Play

FINI Micro and Plus compressors are fully factory tested so they can be delivered ready for immediate use, saving installation time and costs.

Low noise levels

FINI compressors Micro and Plus are very quiet: the use of efficient soundproofing materials makes them suitable for installation even close to the workstation.

High reliability

Quality control and the use of components from world-leading manufacturers ensure long service life and long maintenance intervals.

High productivity

Making a product that ensures high performance is of paramount importance to Fini right from the design stage. The Micro and Plus ranges also follow this philosophy.

Compact design FINI compressor plus

The FINI extremely compact design of these compressors allows them to be installed close to any working environment.

TECHNICAL FEATURES FINI COMPRESSOR PLUS:

Power: 11 KW - 15 HP

Air yield: 1500 Lt/min - 90 m³/h - 53 cfm

Pressure: 10 bar - 145 psi

BSP: 3/4"

Tank capacity: 500 litres

Sound pressure: 69 dB(A)

Length: 700mm

Width: 1980 mm

Height: 1630 mm

Weight: 322 kg

Equipped with a high-efficiency IE3 motor, the compressor provides significant energy savings and reduces CO2 emissions. With a power consumption of only 11 kW, the compressor can provide an air flow of 1,500 liters per minute, ensuring a constant and reliable supply.
